Student Expectations and Agreement

Many resources are used in the Accelerate You! program and we want to make sure students are committed to the program and understand the expectations. Because we are allowing you the opportunity to bypass developmental education courses and enroll directly in college-level courses to save you time and financial aid money, you must agree to the following:

- **AY! hold** – All Accelerate You! students will have an AY! hold placed on their account. There is nothing you need to do for this hold. This hold is placed on your account to ensure that you are not dropped from a class due to not meeting the pre-requisites for the course. The hold will be removed from your account after you complete the AY! course(s) needed.

- **AOCCR = Required extra support time** - Attend the required extra support with your assigned Success Coach(es) during the designated time on your schedule listed as “AOCCR”. This only shows up on your printed schedule. This allows you to take the college-level course without the benchmark placement scores. **Students are required to attend 80% of the scheduled AOCCR time(s).** Students who miss an AOCCR time will be required to make up the missed time to ensure they meet the 80% attendance requirement by scheduling their own tutoring: with the Academic Support Center located in the Matheson Library, with their assigned Success Coach at an alternative time, or with another Success Coach as approved by their assigned Success Coach. **Students who do not complete the required supplemental instruction may be dropped from the program and required to take the developmental course(s) aligned with their placement scores in the following semester.** The AY! hold will remain on the student account preventing enrollment in further coursework.

- **College-level course completion** - Understand that **if you fail the college-level course(s) for which your placement scores are not high enough, you will be required to retest for placement in the college-level course(s) or be placed in a developmental course(s), in the following semester.**

- **Cohort design** – Whenever possible, students will be placed in the AY! section of a course and at least one other course with classmates from the AY! section. This creates a stronger sense of community and a broader support network. **Dropping courses/changing courses may result in you being dropped from the AY! program, and you will then be required to take the developmental course(s) aligned with your placement scores. Please check with your AY! Success Coach or the AY! Director before making any schedule changes.**

- **General expectations** – You are expected to attend classes on time and complete the required coursework, keep your contact information current and updated, and inform your assigned Success Coach or the AY! Director of any concerns you have.

I understand the opportunity provided through the Accelerate You! program and will do my part to abide by the expectations listed above.
