

# INLAND LOGISTICS & MARINE INSTITUTE

West Kentucky Community & Technical College

## is now offering an **Electronic Charting Software Training Course using Rose Point Navigation Systems Software**

This course will train individuals in the use of the Rose Point Navigation Systems Electronic Charting and Navigation software (ECS) as well as demonstrating how an ECS works in relationship to other navigational equipment such as Global Positioning Systems (GPS), Automated Information Systems (AIS) and Radar. Topics to be covered will include an overview of the ECS system, using, installing, maintaining your charts, voyage planning, configuring your vessel and its electronics.

To register or for more information, visit <http://ws.kctcs.edu/westkentucky> or contact Capt. Steven Hearn, Marine Training Specialist, at 270.534.3893 or [steven.hearn@kctcs.edu](mailto:steven.hearn@kctcs.edu)

WKCTC is an equal educational and employment opportunity institution.
