

SPACE QUEST 2013

Astrotot Camp

Astrotot Camp is offered to students rising into **Kindergarten - 1st grade**. Sessions include Rockin' Rockets, Cosmic Constellations and Mighty Magnets. Each session is two hours in length.

Space Discovery I

Space Discovery I is offered to students rising into **2nd - 3rd grade**. This one day camp includes many hands-on space and science activities centered around the planets.

Space Discovery II

Space Discovery II is offered to students rising into **3rd - 4th grade**. This one day camp includes many hands-on space and science activities centered around stars and constellations.

Expedition: Moon

Be among the next generation of space travelers to arrive on the Moon! Campers will Return to the Moon™ as they fly a mission in our hands-on simulator. They will explore just what it takes for astronauts to survive in the Moon's desolate environment. This one day camp is offered to students rising into **4th - 7th grade**.

Designs in Space I **NEW CAMP!**

Be an out-of-this world artist! Students will explore outer space themes through the use of various color medias. Design methods will include the use of pastels, scratchboard and paper. This one day camp is offered to students rising into **3rd-5th grade**.

Designs in Space II **NEW CAMP!**

Take a creative trip through the universe! Students will explore space themes through the use of various color media. 2-D projects will include designing, cutting, and applying pastel stencils and working with paper mosaic. This one day camp is offered to students rising into **6th-8th grade**.

CSI Camp (Challenger Special Investigator)

Become a Challenger Special Investigator. Read the ransom note and follow the fingerprints, fibers and other clues. You will use your powers of observation and conduct scientific tests to help solve the mystery of the missing Mars rocks. This two day camp is offered to students rising into **5th - 8th grade**.

Mission to Mars Camp

Be the first human on Mars! Campers will travel to the Red Planet during a Voyage to Mars™ mission in our hands-on simulator. After arriving on Mars, they will build a life-size colony where they will live, work and train like real planetary astronauts. This three day camp is offered to students rising into **4th - 7th grade**.

Rocket Camp

After learning about the basics of rocketry, participants will build and launch several different types of rockets including eggstronaut rockets and model rockets. This three day camp is offered to students rising into **5th - 8th grade**.

Underwater Astronaut Camp

Learn all about how astronauts train underwater to simulate working in space! Participants will receive basic SCUBA instruction (in a swimming pool) from Mermet Springs, then participate in an underwater astronaut training program. Participants must be able to swim and medically fit to dive. This three day camp is for **11-14 year olds** only. SCUBA gear is provided.
