Prof. Randy Simmons; West Kentucky Community and
Technical College; randallr.simmons@kctcs.edu

Program Description

Pura vida! The KIIS Costa Rica program offers students the opportunity to experience firsthand the sights and sounds of the tropics while living with Costa Rican families. The program begins at the Arenal Volcano and then moves to San Ramón where students meet their host families. Through classroom activities and field trips, students have the opportunity to walk in tropical rainforest canopies, experience Caribbean culture in Puerto Viejo, Limón and visit the Bocas del Toro Islands in Panamá. The final two weeks of the program are spent in homes in Colorado, a small rural village in the southern zone. The program ends with a visit to Corcovado National Park on the Pacific Ocean.

Program Fee Includes

- Up to 7 credit hours
- Transfers to/from San Jose airport
- Accommodations
- Homestays include three meals per day
- Ground transportation in Costa Rica
- Group excursions and field trips
- Comprehensive medical insurance
- Security evacuation protection
