HALLOWEEN SCIENCE

Are you ready for the spookiest Halloween ever? If so, join "Science Guy" Jason Lindsey as he makes a pumpkin explode, creates eerie clouds, creates a lightning bolt, and fills bubbles with ghosts as your child learns the science behind what makes Halloween spooky.

Halloween Science

Saturday, October 22nd

Kentucky Oaks Mall

11 am - 1 pm

*Each child will receive
a bag of candy and an
experiment kit!*

"Science Guy" Jason Lindsey visits hundreds of schools each year inspiring kids to be inquisitive about the world around them and to develop a long-term interest in science. A recent survey of hundreds of educators and parents revealed that the hands-on school science program increases student knowledge of science, increases student interest in science, and increases student attitude that science is "fun."

The fee is 25 dollars per child ages 4 to 12. Send an email to jlindsey@hookedonscience.org to register your child. Please include your child's name, your name, email address, and phone number.
